G&N Aircraft, Inc. is an F.A.A. Certified Repair Station (MW2R020L), which began operation in 1961, founded by Paul Goldsmith and Ray Nichels. Our staff has combined experience of over 800 years and over 20,000 engines built making it an easy choice when deciding on whom to overhaul your Mooney engine. If you are considering this upgrade think G&N Aircraft for all of your Mooney needs. Our staff is happy to discuss your upcoming engine and airframe needs; give a tour of our facility and schedule your maintenance.

We Are The Engine Overhaul Experts!

Since 1961, G&N Aircraft has produced over 20,000 engines. Our staff has over 550 years of combined experience in general aviation. G&N is a FAA certified repair station (MW2R020L) specializing in the overhaul & repair of engines and engine accessories. We have the in-house capabilities to overhaul most engine components that normally put other shops at the mercy of outside vendors, allowing us to tightly control our quality. Our convenient location is just 20 miles south of Chicago at the Griffith-Merrillville Airport (05C), in Griffith, Indiana, and we are easily accessible by air & highway.

Mooney STC Facts

Serving Size:	One Fast Aircraft
Climb Rate	Up to 150 F.P.M. Gain
Horsepower Gain	10 More Horsepower
Cruise Speed	4 to 5 knot increase
Resale Value	Greater
Propeller Options	2 Blade Hartzell 3 Blade Hartzell
RPM/MP Restriction	Eliminated
Engine TBO	2000 Hours
Roller Tappet	All engines

Every G&N Aircraft Engine is:

- ✓ Produced to factory new fits & tolerances without exception for long term durability.
 - ✓ Built using genuine original equipment manufacturer replacement parts, with limited exceptions.
 - ✓ Thrust load dynamometer tested for 3 to 4 hours to provide initial break-in & trouble free operation.
 - ✓ Overhauled in compliance with all FAA Airworthiness Directives & Manufacturer Service Bulletins.
 - ✓ Inspected, reconditioned & assembled by skilled technicians with years of experience working on piston aircraft engines.
 - ✓ Rotating parts are precision balanced statically for smooth operation. All parts are individually painted or alodined for longer wear & improved appearance. Crankshafts are dynamically balanced.
 - ✓ Covered by a complete parts & labor warranty for one year. Thereafter the engine (excluding accessories) is warranted pro-rata parts & labor to the manufacturer recommended TBO.
 - ✓ Engines customized through STC's & approved aftermarket upgrades at customer request.
-
